

## **Local Recycling**

This is Dave from the Vilas County Zoning & Planning with some information about recycling in your community.

–

Did you know that recycling in Vilas County is really a hometown affair? Every community in the county has a local option for trash disposal and household recycling – either a conveniently located transfer site or curbside pickup where you can dispose of all your aluminum or tin cans, paper, plastics, and everyday household trash.

Most transfer sites even have staff on hand to help you with any questions that you might have.

Contact your local town or city clerk for more information on trash disposal and recycling in your community. Or go to [www.vilascounty zoning.com](http://www.vilascounty zoning.com) and click on the Waste & Recycling tab for a complete list of local transfer site locations and hours.

–

And while you're there, check out the rest of Vilas County's recycling programs, and look for the Bog Frog to see this complete message.
